GREENLAND RESOURCES INC.

CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED JUNE 30, 2020 and 2019

(Expressed in Canadian dollars)

GREENLAND RESOURCES INC.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited condensed consolidated interim financial statements of Greenland Resources Inc. (the "Company") are the responsibility of management and the Board of Directors.

The unaudited condensed consolidated interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited condensed consolidated interim financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the unaudited condensed consolidated interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 - Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established processes, which are in place to provide it with sufficient knowledge to support management representations that it has exercised reasonable diligence in that (i) the unaudited condensed consolidated interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the unaudited condensed consolidated interim financial statements and (ii) the unaudited condensed consolidated interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited condensed consolidated interim financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited condensed consolidated interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed consolidated interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited condensed consolidated interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company’s affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTICE OF NO AUDITOR REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the condensed consolidated interim consolidated financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying condensed consolidated interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these condensed consolidated interim financial statements in accordance with the standards established by the Chartered Professional Accountants Canada for a review of interim financial statements by an entity's auditor.

1. NATURE OF OPERATIONS AND GOING CONCERN

Greenland Resources Inc. (the “Company”) was incorporated under the laws of the Province of Ontario by articles of incorporation dated February 7, 2008 and was engaged in early stage biomedical research. The Company had one project, which was to collaborate with and provide funding to the Hospital for Sick Children for a project involving certain brain tumour and stem cell research (see Note 13). The Company is now engaged in the acquisition, exploration and development of mineral properties in Greenland. The Company owns a 100% interest in both the Malmbjerg Molybdenum Project and the Storø Gold Project. Both are exploration projects located in Greenland. The Company’s registered office is at 18 King Street East, Suite 902, Toronto, Ontario M5C 1C4.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations on such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, social licensing requirements, unregistered prior agreements, unregistered claims, and non-compliance with regulatory and environmental requirements.

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the realization of assets and discharge of liabilities in the normal course of business. There are certain conditions that cast doubt on this assumption. The Company has incurred losses from operations since inception.

The ability of the Company to continue as a going concern is dependant upon the development and commercialization of its mineral exploration project, and the generation of positive cash flows from operations. The business of exploring for minerals involves a high degree of risk and there can be no assurance that future exploration and development programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. See also Note 12.

As at June 30, 2020, the Company has not earned revenue and has an accumulated deficit of $7,773,066. The Company’s ability to continue as a going concern in the longer term is dependent upon its ability to obtain additional financing and achieve profitable operations in the future. There is no assurance that the Company will be successful in achieving these objectives. Management believes it has sufficient working capital to support operations for the next twelve months. These financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

These financial statements were approved by the Board of Directors on October 13, 2020.

2. BASIS OF PREPARATION

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”). These consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (IAS34). Accordingly, they do not include all of the information required for full annual financial statements by IFRS as issued by IASB and interpretations issued by IFRIC.

2. BASIS OF PREPARATION (Continued)

Statement of compliance (Continued)

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of October 13, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these consolidated financial statements as in the most recent annual financial statements as at and for the year ended March 31, 2020. Any subsequent changes to IFRS that may be given effect in the Company's annual financial statements for the year ending March 31, 2021 could result in restatement of these unaudited condensed interim financial statements.

The policies have been consistently applied to all periods presented unless otherwise noted.

Basis of measurement

These consolidated financial statements are prepared on the historical cost basis, except for certain financial instruments that are carried at fair value. In addition, these consolidated financial statements are prepared using the accrual basis of accounting except for cash flow information. These consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiary.

Principles of consolidation

These financial statements include the accounts of the Company and its wholly owned subsidiary, Copenhagen Minerals Inc. ("CMI"). Intra-group balances and transactions are eliminated in preparing the consolidated financial statements.

Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company and are de-consolidated from the date control ceases. The financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

3. SIGNIFICANT ACCOUNTING POLICIES

Changes in accounting standards

During the three-month period ended June 30, 2019, the Company adopted a number of new IFRS standards, interpretations, amendments and improvements of existing standards. These included IFRS 16 - *Leases* and IFRIC 23 - *Uncertainty Over Income Tax Treatments*. These new standards and changes did not have any material impact on the Company's financial statements.

(Expressed in Canadian dollars)

4. FUTURE ACCOUNTING CHANGES

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning on or after April 1, 2020 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IAS 1 – *Presentation of Financial Statements* ("IAS 1") and IAS 8 – *Accounting Policies, Changes in Accounting Estimates and Errors* ("IAS 8") were amended in October 2018 to refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments are effective for annual reporting periods beginning on or after January 1, 2020.

IFRS 10 – *Consolidated Financial Statements* ("IFRS 10") and IAS 28 – Investments in Associates and Joint Ventures ("IAS 28") were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined, although early adoption is permitted.

(Expressed in Canadian dollars)

6. RELATED PARTY TRANSACTIONS

Related parties include the Board of Directors, close family members and enterprises that are controlled by these individuals as well as certain persons performing similar functions. In accordance with IAS 24, key management personnel are those having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any directors (executive and non-executive) of the Company. The following table shows the compensation paid to key management personnel.

Key Management	**Period (Q1)**	**Consulting fees (management) ($)**	**Stock-based compensation ($)**	**Consulting fees (other) ($)**	**Total compensation ($)**
Officers	2020	49,675	-	-	49,675
	2019	21,000	(40,907)	-	(19,907)
Directors *(not including officers)*	2020	-	-	10,000	10,000
	2019	-	-	15,000	15,000
Totals	2020	49,675	-	10,000	59,675
	2019	36,000	(40,907)	15,000	(4,907)

One officer of the Company held an expense advance at June 30, 2020, with a balance of $24,708 in total (March 31, 2020 - $19,058). This amount is unsecured, non-interest-bearing and due on demand.

The above transactions were conducted in the normal course of business and were accounted for at the exchange amount which is the amount agreed between the parties.

During the year ended March 31, 2016, the Company made a $300,000 investment in the shares, which it still owns, of Shiffoil Inc. (“Shiffoil”, formerly 1885683 Alberta Ltd.), a private oil and gas company with property in western Canada. (See Note 8) Two directors of the Company are directors and shareholders of Shiffoil.

During the year ended March 31, 2019, the Company approved a loan facility for Shiffoil of up to $800,000. The loan facility was never used and was cancelled in the year ended March 31, 2020.

During the year ended March 31, 2019, 3,600,000 stock options were granted to two officers who were also directors of the Company under the Company’s stock option plan. These options were valued at $396,000 in total. As a result of the death of one of those directors, an adjustment in the stock-based compensation for unvested options resulted in a reduction of $40,907 during the quarter ended June 30, 2019.

(Expressed in Canadian dollars)

7. CAPITAL STOCK, WARRANTS AND STOCK OPTIONS

(a) Authorized

Unlimited number of common shares with no par value

(b) Issued

	Number of shares #	Amount $
Balance, March 31 and June 30, 2020	72,253,030	8,283,722

(c) Warrants

	Warrants #	Grant Date Fair Value $	Exercise Price $
Balance, March 31 and June 30, 2020	250,000	23,250	0.10

250,000 warrants were issued to an agent pursuant to a prior financing. These non-assignable agent's warrants are exercisable at $0.10 per share for a period of 24 months following the date of listing of the common shares on a recognized stock exchange.

(d) Stock options

The Company has granted options for the purchase of common shares, both under its stock option plan dated April 28, 2015 for employees, officers, directors and consultants of the Company. The options are non-assignable and may be granted for a term not exceeding five years. The exercise price of the options is fixed by the Board of Directors of the Company at the time of grant, not to be less than the market price of the common shares and subject to all applicable regulatory requirements.

As at June 30, 2020, the following stock options were outstanding:

Outstanding Options #	Exercisable Options #	Exercise Price ($ per share)	Weighted Average Remaining Contractual Life (years)	Expiry Date
700,000	700,000	0.20	2.36	November 9, 2022
1,900,000	1,900,000	0.20	2.75	March 29, 2023
1,800,000	1,800,000	0.20	3.55	January 15, 2024
4,400,000	4,400,000	0.20	3.01	

(Expressed in Canadian dollars)

7. CAPITAL STOCK, WARRANTS AND STOCK OPTIONS (Continued)

(d) Stock options (Continued)

The following table summarizes changes in stock options:

	Options #	Exercise Price $
Balance, March 31, 2019	7,494,000	0.20
Expired (i)	(1,094,000)	0.20
Balance, March 31, 2020	6,400,000	0.20
Expired	(2,000,000)	0.20
Balance, June 30, 2020	4,400,000	0.20

i. On March 27, 2019, the Company's President and CEO passed away. At the time he held 400,000 stock options issued in 2015 and scheduled to expire on April 28, 2020, and 1,800,000 stock options issued in 2019 and scheduled to expire on January 15, 2024. Of his 2019 options, 594,000 were vested and exercisable. The Company's stock option plan provides that, if an optionee dies, the options then vested of the deceased option holder will be exercisable by his or her estate for a period to be determined by the compensation committee or the Board, as applicable, not exceeding 12 months or the balance of the term of the options, whichever is shorter. These options have therefore been removed from their original line on the preceding table and shown separately with their new expiry date. The weighted average remaining contractual life has been recalculated to reflect this change from previous disclosure.

(Expressed in Canadian dollars)

8. INVESTMENT

On June 9, 2015, the Company participated in a private placement under which it acquired 2,000,000 common shares of a private oil and gas company at $0.15 per share, for a total investment of $300,000.

The Company recognized an unrealized loss of $600,000 in the carrying value of its investment during the year ended March 31, 2020, based on the transaction prices of private placements completed shortly after the year end. This loss is directly attributable to the sharp decline in oil prices caused by COVID-19.

The following table shows the securities, with percentage of ownership in the investee company that the shares owned by the Company represented, held by the Company at the dates indicated:

	June 30, 2020			March 31, 2020		
	Shares	%	$	Shares	%	$
Shiffoil Inc.	2,000,000	3.4	80,000	2,000,000	3.4	80,000
Total investment			80,000			80,000

See Notes 6 and 10.

9. EXPLORATION AND EVALUATION PROPERTIES

The Company has two exploration license areas in Greenland.

License 2014/11, referred to as the Storø Project, is held through the Company's wholly-owned subsidiary CMI. It was renewed for a further five years following expiry of its first five-year term on December 31, 2018. The Company applied for and was granted a renewal of the key mineralized area and dropped two separate blocks that comprised part of the original license area and had been determined to have only limited exploration potential. The minimum exploration requirement for 2020 (year 7) was waived due to COVID-19; annual requirements for years 8 through 10 are expected to approximate the 2019 (year 6) amount of DKK 864,200 or approximately $180,000.

License 2018/11, referred to as the Malmbjerg Molybdenum Project, was acquired by the Company in December, 2017 and is valid until December 31, 2022 as long as minimum annual work requirements are met. The minimum exploration expenditure requirement for 2020 (year 3) was waived due to COVID-19.

After Year 5 the Company has the option to extend the license for a further five years from December 31, 2022. By the end of the year ended March 31, 2020, the Company's expenditures on engineering studies of Malmbjerg had exceeded the minimum amount required for the first license renewal date of December 31, 2018 and the excess expenditures may be applied to future requirements, meeting the required renewal amounts until the end of Year 4 at December 31, 2022.

Total exploration expenses, including off-property generative and due diligence work for the three months ended June 30, 2020 came to $33,621 (year ended March 31, 2020 - $464,444; 2019 - $678,864), as outlined below.

(Expressed in Canadian dollars)

9. EXPLORATION AND EVALUATION PROPERTIES (Continued)

a) Storø Gold Project

Exploration and evaluation expenditures for the Storø property during the three months ended June 30, 2020 came to $8,132 (year ended March 31, 2020 - $51,444; 2019 - $7,513). Exploration expenditures incurred by the Company are summarized in the following table:

	3 months ended June 30, 2020 $	Year ended March 31, 2020 $	Year ended March 31, 2019 $
Consulting, deposit studies	-	42,495	-
Tenure	8,132	8,512	7,513
Travel and accommodation	-	437	-
	8,132	51,444	7,513

b) Malmbjerg Molybdenum Project

Exploration and evaluation expenditures for the Malmbjerg Molybdenum property during the three months ended June 30, 2020 came to $25,489 (year ended March 31, 2020 - $383,000; 2019 - $671,351). Exploration expenditures incurred by the Company are summarized in the following table:

	3 months ended June 30, 2020 $	Year ended March 31, 2020 $	Year ended March 31, 2019 $
License fees, tenure	-	3,240	2,000
Consulting, deposit studies	25,489	359,940	652,715
Supplies and services	-	3,264	2,891
Travel	-	16,556	13,745
	25,489	383,000	671,351

10. FINANCIAL INSTRUMENTS

Fair Value

IFRS requires that the Company disclose information about the fair value of its financial assets and liabilities. Fair value estimates are made at the reporting date based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

The carrying values of cash, advances, sundry receivables and accounts payable and accrued liabilities approximate their fair values due to their short-term nature.

(Expressed in Canadian dollars)

10. FINANCIAL INSTRUMENTS (Continued)

Fair Value (Continued)

The Company based its estimate of the fair value of its investment in Shiffoil as at March 31, 2020 on the transaction prices of private placements completed shortly after that date. In April of 2020 private placements were completed by Shiffoil at a unit price of $0.06 for one common share plus one five-year warrant exercisable at $0.10 per share. The fair value of each of the components of the units was estimated at $0.04 per common share and $0.02 per warrant using the Black Scholes pricing model with the following assumptions: expected dividend yield of 0%, expected volatility of 100%, risk free rate of 0.41% and expected life of 5 years. Volatility was based on the historical volatility of comparable companies. The Company therefore adjusted the value of its holdings to this newly established price as shown in the following table of Level 3 fair value adjustments.

Investment in Shiffoil Inc., fair value	Quarter ended June 30, 2020 $	Year ended March 31, 2020 $
Balance, beginning of period	80,000	680,000
Changes in valuation	-	(600,000)
Balance, end of period	80,000	80,000

Risk Factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no changes in the risks, objectives, policies and procedures from the previous period.

Liquidity Risk:

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2020, the Company had a cash balance of $1,052,220 (March 31, 2020 - $1,223,956) to settle current liabilities of $45,649 (March 31, 2020 - $77,423). All of the Company's accounts payable and accrued liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Interest Rate Risk:

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in money market funds and investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Credit Risk:

The Company's credit risk is primarily attributable to sundry receivables and expense advances. Included in sundry receivables is sales tax refunds due from the Government of Canada. From time to time the Company makes advances to certain of its personnel and suppliers to expedite work that requires them lay out funds for significant expenses that are reimbursable or as prepayment for planned future work. The Company has no significant concentration of credit risk arising from operations. Management believes that the credit risk concentration with respect to those financial instruments included in sundry receivables and advances is remote.

10. FINANCIAL INSTRUMENTS (Continued)

Risk Factors (Continued)

Foreign Exchange Risk:

The Company's functional and reporting currency is the Canadian dollar and purchases of goods and services have generally been transacted in Canadian dollars. The Company funds certain operations, exploration and administrative expenses on a cash basis in Danish Krone (DKK) or other currencies converted from its Canadian dollar bank accounts held in Canada. Management believes the foreign exchange risk derived from currency conversions is, for the foreseeable future, negligible and therefore does not hedge its foreign exchange risk. As at June 30, 2020 and 2019, the Company's cash balances were all held in Canadian dollars. From time to time, certain suppliers to the Company's exploration program require deposits or advances that are denominated in DKK or USD. Historically the deposit amounts were all applied against bills, or refunded if unused, over relatively short time frames which made the exchange fluctuation effects immaterial in these stable currencies.

Price Risk:

Prices of goods and services consumed in the course of the Company's activity can fluctuate in response to supply and demand and are often driven by industry cycles. Fluctuations in commodity prices may influence financial markets and may indirectly affect the Company's ability to raise capital to fund exploration. If they vary materially from forecasts made when budgets are set it could affect the ability of the Company to complete work programs. Generally, the Company's planning time horizons are short enough that this does not present a significant risk.

The Company is also subject to price risk with respect to changes in value of its investment (See Note 8).

Sensitivity Analysis:

Sensitivity to a plus or minus 1 percentage point change in interest rates, based on the balance of cash as at June 30, 2020 would result in a change in interest income of approximately $10,522 (March 31, 2020 - $12,240) if held over a twelve-month period.

Sensitivity to a plus or minus 10 percentage point change in the value of the investment at June 30, 2020 and March 31, 2020 would result in a change in the investment of approximately $8,000.

11. CAPITAL MANAGEMENT

The Company considers its capital structure to consist of capital stock, warrant and stock option reserves and accumulated deficit. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to fund its exploration activities. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The projects in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration programs and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the quarter ended June 30, 2020 or the year ended March 31, 2020.

12. COMMITMENTS AND CONTINGENCIES

The Company's exploration and evaluation activities are subject to various international and federal laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations. Under the mining law of Greenland certain levels of expenditure are required to have been incurred in order to renew licenses annually, and the Company intends to continue to meet those requirements at Storø and Malmbjerg. (See Note 9)

The Company is party to certain management contracts. These contracts contain aggregate annual commitments of approximately $175,000 and additional contingent payments of approximately $350,000 upon the occurrence of a change of control. As a triggering event has not taken place, the contingent payments have not been reflected in these consolidated financial statements.

Since December 31, 2019, the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition in future periods. The Company is closely monitoring the business environment as a result to ensure minimal disruption to business operations. See also Note 8 for the impact of COVID-19 on the Company's investment.

13. PREVIOUS RESEARCH PROJECT

On February 8, 2008, the Company entered into a research agreement with The Hospital for Sick Children ("HSC") regarding funding and collaboration with respect to certain research conducted by HSC regarding brain tumour stem cells and the Company funded $300,000 of research expenses. The Company is entitled to 10% of HSC's net proceeds from any commercialization agreements pertaining to intellectual property derived from that research. HSC reports that the larger research project, which includes some of the materials subject to the Company's interest, is ongoing

14. SEGMENTED INFORMATION

The Company's operations consist of the acquisition, exploration and development of mineral properties. During the quarter ended June 30, 2020 and the year ended March 31, 2020, substantially all of the Company's assets and operations related to the acquisition, exploration and development of resource properties were held in Canada. All of its exploration properties were located in Greenland.
